WHO READS CHARGED?

Charged has a highly-engaged audience of readers interested in electric and hybrid vehicle technology and infrastructure. Here’s a sample of some recent unsolicited accolades from Charged readers:

Immediately after we appeared in Charged we noticed a major spike in web traffic on our site and had 4 or 5 new companies contact us, including the CEO of a company we’ve been trying to connect with for some time.
Bruce Renouard, CEO
Pre-Switch

At Tesla, we keep the past issues of Charged on the bookshelf for employees to share. We also recently had some visitors who recognized me from the interview we did last year, which was great.
Konstantinos Laskaris, Traction Motor System Architect
Tesla Motors

Charged is a great resource, because I don’t have the ability to travel to all of the different trade shows. It’s a great way to stay up to date on the EV industry.
Margaret Larson, Transportation Energy Specialist
Hawaii State Energy Office

The Charged article ‘A Closer Look at Switched Reluctance Motors’ is clearest explanation of SR motors that I have seen in terms of basic function and pros and cons.
Ben Treichel, Sr Engineering Specialist Hybrid Systems
Caterpillar Inc

I find Charged to be an excellent trade journal - one of the better ones among the dozens of trade journals that I follow. Each issue seems to have insightful editorials, relevant industry information about companies operating in the hybrid and electric vehicles space, interviews, etc.
Sandeep Sovani, Ph.D. - Global Automotive Strategy,
ANSYS
